

## **Evergreen Sustainable Development Standard (ESDS): Documents**

### Charrette Executive Summary (Example): (Posted 08/30/07)

This is an example of a report that you can expect to receive if you choose to work with the Department of Ecology on facilitating your design workshop. This charrette process was designed to elicit strategies specific to the LEED™ standard. The charrette process for your project will incorporate the requirements of Evergreen Criterion 1-1.

### New Construction & Rehab Criteria: (Posted 08/30/07)

Not all criteria apply to all projects. Both mandatory and optional criteria for new construction are listed in one worksheet. The same is done for rehabilitation projects. You can use one or the other of these lists depending on whether your project is new construction or rehab. This is a tool that allows you to focus on relevant criteria.

### Common Ground Final Report: (Posted 08/31/06)

Common Ground has completed a final report summarizing the process and recommendations from the Green Team as well as outlining additional considerations for implementation.

### Public Comment Summary: (Posted 08/15/06)

Common Ground collected the public comments on the sustainable development standard and provided a summary.

### 30-Day Public Comment Solicitation: (Posted 06/01/06)

The Common Ground facilitator of the Green team solicited public comment on their recommendation of Green Communities™ as the HTF sustainable development standard from June 1, 2006 to June 30, 2006.

### Green Team Recommendation: (Posted 05/26/06)

In the spring of 2006, a team of technical advisors, the Green Team, convened to deliberate and recommend a sustainable development standard for the Housing Trust Fund.
